

FOR IMMEDIATE RELEASE

Northeast Orthopaedic Alliance

Welcomes South Shore Orthopedics

Hingham-Based Practice Becomes NOA's Sixth Division, Expanding Region's Premier Orthopaedic Network Across Boston's South Shore

WALTHAM, Massachusetts – June 1, 2026 – **Northeast Orthopaedic Alliance (NOA)**, the region's leading provider of orthopaedic and musculoskeletal care, today announced that **South Shore Orthopedics**, a leading orthopaedic group based in Hingham, Massachusetts, will join NOA as its newest division, effective **June 1, 2026**. The addition expands NOA to six divisions and further strengthens the organization's position as the premier provider of orthopaedics across Massachusetts and New Hampshire.

With the addition of South Shore Orthopedics, NOA will be comprised of six divisions representing **120 physicians, 108 advanced practice providers, and 26 physical and occupational therapists across 22 locations** in Massachusetts and New Hampshire. South Shore Orthopedics brings **13 physicians, 13 advanced practice providers, and two locations** in Hingham and Abington, deepening NOA's clinical capabilities and broadening patient access throughout Boston's South Shore.

"South Shore Orthopedics is an exceptional group with a long-standing reputation for clinical excellence and a patient-first culture that aligns directly with NOA's values. Their decision to join NOA reflects the strength of our unified, physician-led model and our shared commitment to delivering the region's finest orthopaedic care," said **John R. Corsetti, MD, President**, Northeast Orthopaedic Alliance.

"Welcoming South Shore Orthopedics into NOA is a meaningful milestone in our growth and integration journey. Their physicians and teams bring outstanding clinical talent, deep community relationships, and a culture of excellence that will make us stronger. Together, we will continue building the connective tissue that allows our divisions to operate as one unified organization — all in service of better outcomes for the patients and communities we serve," said **Stephen L. DeBiasi, FACMPE, Chief Executive Officer**, Northeast Orthopaedic Alliance.

South Shore Orthopedics is widely recognized on Boston's South Shore for delivering high-quality, efficient orthopaedic care across every life stage. The group's physicians and advanced practice providers offer comprehensive subspecialty services including sports medicine, joint replacement, hand and upper extremity, foot and ankle, spine, and orthopaedic trauma.

"Joining Northeast Orthopaedic Alliance is the right next step for our practice, our patients, and our team. NOA's physician-led model, regional scale, and investment in clinical and operational excellence will allow us to continue delivering the modern, efficient, compassionate care our community knows us for — while expanding the services and resources we can offer," said **Michael E. Ayers, MD** South Shore Orthopedics.

The addition reflects NOA's strategy of unifying premier orthopaedic groups under a single organization focused on integrated, high-quality care, operational excellence, and innovation. South Shore Orthopedics will operate as a division of NOA, retaining its name, physicians, and locations in Hingham and Abington while gaining access to NOA's shared infrastructure, clinical programs, and strategic resources.
